

The Melanoma Foundation of New England presents

2014 Fall Melanoma Symposium

Targeted Therapy Advances

Wednesday, October 29, 2014 | 6:30pm - 8:30pm

Jimmy Fund Auditorium

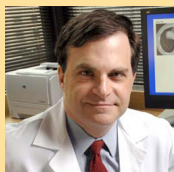

Dana-Farber Cancer Institute
35 Binney Street, Boston, MA

Join us at our 2014 Fall Symposium with Dr. Stephen Hodi and Dr. Ryan Sullivan to discuss advances in targeted therapy. Question and answer session will follow the presentation. Don't miss this opportunity for education, discussion & connection. Open to patients, survivors, families and friends.

Ryan Sullivan, MD

Dr. Sullivan is board certified in Medical Oncology, an Assistant in Medicine and member of the Center for Melanoma and Termeer Center for Targeted Therapy at MGH. He is also a member of the Melanoma Program at Dana-Farber/Harvard Cancer Center and the Institutional Review Board.

Stephen Hodi, Jr., MD

Dr. Hodi is the Director of the Melanoma Center at Dana-Farber/Brigham and Women's Cancer Center and Assistant Professor of Medicine at Harvard Medical School. He received his MD degree from Cornell University Medical College in 1992. Dr. Hodi also serves on the Melanoma Foundation of New England Medical Advisory Board.

Refreshments will be served. Free parking available at Yawkey Garage, 1 Jimmy Fund Way.
